CAPITAL FLIGHT FROM SOUTH AFRICA: A CASE STUDY

Capital flight is a concern in a country such as South Africa that faces deep financing gaps, high multidimensional poverty, inequality and unemployment. An important challenge faced by South Africa in its quest to tackle capital flight and the associated problems such as tax evasion, base profit shifting, and money

Collusion, Collective Action and Protection: Theory and ...

greater tariff raises collusion, this in turn causes the firms to reduce their political giving for greater protection. This suggests that collusion and lobbying for greater protection are substitutes for firms. Our model of political choice builds on the common agency models by Bernheim and Whinston (1986) and Grossman and Helpman (G-H).
