Journal" as one of the best books of 1999 was "Mother Nature: A History of Mothers, Infants and Natural Selection" which won the Howse Prize for Outstanding Contribution in Biological "Mothers and Others: The Evolutionary Origins of Mutual Understanding" Adding yet another facet to our understanding

### **Infant Mother Attachment - Semantic Scholar**

Bowlby's (1969) ethological-evolutionary attachment theory implies that it is an essential part of the ground plan of the human species as well as that of many other species for an infant to become attached to a mother figure. This figure need not be the natural mother but can be anyone who plays the role of principal caregiver. This

we attach to others and if a culturally insensitive and historically “white” attachment theory can be applied to the Latino family system. This qualitative, exploratory study was designed to further an understanding of the attachment issues experienced in the Latina population by examining the commonalities in the relationships Latina mothers

#### **The Evolutionary and Fitness Consequences of Human ...**

have a remarkably long period when they receive some assistance from others. But, adults also harness the help of juveniles. Here I draw attention to this overlooked evolutionary aspect of redistributing dependency across both infancy and juvenility. In doing so, mothers not only attenuate a physiological constraint on fertility

#### **Evolutionary Psychology**

The evolutionary framework in which both mothers' and offspring's psychology have developed is well summarized in the formula 'mothers matter most' (Campbell, 2002, p 34). In all known human societies, biological mothers invest in children the most. Mothers are crucial for infant survival (Sear and Mace, 2008) and they continue to

#### **CUTTING NATURE AT ITS JOINTS: TOWARD AN ...**

Journal of Social, Evolutionary, and Cultural Psychology 2012, 6(3), 260-291. Children of non-investing fathers and mothers are placed in adoptive or foster homes, of others and therefore invites retaliation—potentially a very high cost to an aggressor.
